WELCOME

A Companion, Not a Chore

This workbook walks beside the Guide, one day at a time. Every day has a place to write, and most days take five or ten minutes. Some days, a line or two is plenty. When the Guide asks you to notice something, this is where it goes.

It's made for one person: you. If there are kids in your house, many pages have a little room to write down what they say, word for word. Those lines often turn out to be the best ones in the book.

If your family has the Wonderful Woods books, the line at the foot of most pages tells you where the kids' day is: the page of that day's story in the storybook, and the page where the day starts in the matching activity book. Book 1 is November (*The Thank-You Adventure in Wonderful Woods* and its activity book). Book 2 runs from December 1 to January 4 (*The Overflow Adventure in Wonderful Woods* and its activity book).

Nothing here is a test. Skip a page, come back to it later, or write one line where there's room for five. No Hurry = No Worry.

The leaves, ornaments and stars you write this season go to other people or stay on the tree. This book is what stays with you. Next November, it's the first place to look, and page 71 shows you how to make sure you find it.
